1. Introduction

- 1.1 The Electoral Administration Act 2006 places a duty on the Council to divide its area into Polling Districts and designate suitable Polling Places.
- 1.2 The Council's current Polling Districts were based on 7 UK Parliamentary Constituencies (although this reduced to 6 with the introduction of the Boundary Commission for Scotland's 2023 Review of UK Parliament Constituencies) and 8 Scottish Parliamentary Constituencies, following the review of the Scottish Parliament Boundary Commission in 2010.
- 1.3 At its meeting on 25 January 2024 the City Administration Committee approved an Interim Polling Scheme for the UK Parliamentary Elections and noted that a full review of the City's Polling Districts and Polling Places, including public consultation, would take place after the Scottish Boundary Commission concluded its review on the number of Scottish Parliamentary Constituencies expected September 2025.

2. Review

- 2.1 The Scottish Parliamentary Boundary Commission Review has now concluded with, Glasgow returning 7 constituencies, enabling the commencement of the Polling District and Polling Place Review. The 7 Scottish Parliamentary Constituencies are:-
 - Glasgow Anniesland
 - Glasgow Baillieston and Shettleson
 - Glasgow Cathcart and Pollok
 - Glasgow Central
 - Glasgow Easterhouse and Springburn
 - Glasgow Kelvin and Maryhill
 - Glasgow Southside
- 2.2 Although the purpose of this Review was to examine the boundaries of Polling Districts and both the availability and suitability of Polling Places, officers also reviewed the naming convention of the Polling Districts to reflect the UK Parliament Elections, Scottish Parliament Elections and Local Government Elections.
- 2.3 An assessment of Polling Place suitability, both existing and proposed, was carried out by the Election Office and City Building (Glasgow) LLP with particular emphasis on location and accessibility (for both disabled electors and for transport links).
- 2.4 Attention was directed toward identifying alternative venues for current Polling Places in Nurseries and ASL education premises, or non-council locations where costs exceed £1500.
- 2.5 A historical agreement with Education Services established that the first Thursday in May each year would be designated as an in-service day,

enabling the ongoing use of educational premises as Polling Places. Although every effort has been made to identify alternative venues for nurseries and ASL premises currently used, suitable replacements have not yet been found in all cases. Venues for which suitable alternatives have not been secured will revert to the original Polling Place, with continued efforts to identify more appropriate options in the future.

- 2.6 The proposed changes to Polling Districts and Polling Places were shared with MPs, MSPS and local Elected Members, Community Councils, and published online for feedback. Comments from these groups and the general public has been reviewed, and the proposed changes have been revised accordingly.

3. Proposed Polling Scheme

- 3.1 The proposed Polling Scheme is available at Appendix 1, detailing the new Polling District names and Polling Places.
- 3.2 Polling Districts now use 8-digit codes representing the Scottish Parliament and UK (Westminster) constituencies, Ward Number, and a sequential number. For example:

Current	Proposed
AN0114	ANWE1401

The sequential numbering at the end allows flexibility of adding Polling Districts if required at future Polling Scheme reviews.

- 3.4 Glasgow like many EROs in Scotland are intending that the Electoral Register to be published on 1st December 2025 will be based on the new Scottish

Parliamentary Constituencies as approved following the Boundary Commission Review earlier this year. It is further anticipated that the Register will also incorporate the changes to Polling Districts.

- 3.5 The Polling Scheme will additionally serve as the foundational template for the Local Government Elections scheduled to take place in May 2027.
